2024-2025 COST OF ATTENDANCE

The Cost of Attendance (COA) is the estimated total cost to attend Carlow University for the 2024-2025 academic year, before any financial aid is applied. It includes **Costs Payable to Carlow** (often called "Direct Costs"), such as tuition and fees as well as housing and meals (should you choose to live on campus). These are items billed by, and paid to, the university. It also includes **Costs Paid to Others** (often called "Indirect Expenses"), which are estimated amounts for books, supplies, transportation, loan fees, or other personal expenses. These amounts can vary and are not paid directly to Carlow but should be considered when thinking about the overall cost to attend college. The charts below assume full-time attendance as a traditional undergraduate student (minimum 12 credits per semester).
